BEMA
TEXTILE SOLUTIONS

/ WHAT DO WE DO

For over 40 years, we have been providing integrated assembly service, assistance, overhaul and maintenance for textile production plants. We also support companies in all activities involving transfer of complete spinning and weaving plants. We provide technical consultancy and appraisal; mechanical, technological, electrical and electronic assistance. We guarantee assistance in the purchase of used machinery both of Italian and of foreign construction.

/ BRIEFLY

- Design and supervision of textile installations
- Assistance on textile machines
- Maintenance of textile machines
- Technical consultancy and appraisals
- Supply of spare parts

/ FOR WHICH PLANTS

- Complete spinning plants: ring spinning machines, winding machines, twisting machines, blow room machines, carding machines, drawing machines, roving frame machines, combing machines, open end spinning machines.
- Machines for weaving and weaving preparation: warping machines, sizing machines, dyeing lines for denim both flat and rope, weaving machines.

/ WHERE

We operate wherever your plants are present, both in Italy and abroad.

/ WHY CHOOSE US

For a complete and quality service that covers all your possible needs, from design to installation and start-up of plants, until the training of the staff and maintenance program.

For our deep knowledge of the market and products, not only the big Italian builders, with whom we have direct collaborations, but also the foreign ones, for our long run experience in the market.

Because we are serious and reliable professionals, conscious that words, like promises, have importance and value.

BEMA
TEXTILE SOLUTIONS

/ WHAT WE GUARANTEE

Proven technical experience
Contacts with the big builders
Reliability and Professionalism
Availability to operate anywhere in the world
Full support for all your needs
Long lasting relationships

/ OUR REFERENCES

We have always worked closely with the main Italian textile machinery construction groups with which we have established, over time, important collaborations, including “Savio Macchine Tessili Spa”, “Karl Mayer Rotal Srl” and “Marzoli Spa”.
